SUMMARY

Enthusiastic IT and Data Science undergraduate with expertise in machine learning, predictive analytics, and data visualization. Skilled in analyzing large datasets, building models, and deploying data-driven solutions. Proficient in Python, TensorFlow, and SQL, with experience in web scraping, data preprocessing, and recommendation systems. Passionate about leveraging data to drive insights and innovation.

TECHNICAL SKILLS

- **Programming Languages** : Java, Python , ReactJS , c++ , Kotlin
- **Web Development**: HTML, CSS, JavaScript, React, Node.js , PHP , Tailwind CSS
- **Databases**: MySQL, MongoDB ,SQL
- **Mobile Development**: Kotlin, Android Studio
- **Operating Systems**: Windows, Linux
- **Tools**: MS Excel ,power BI , Tableau , Git ,Figma
- **Frameworks & Libraries**: TensorFlow, Pandas , Numpy , scikit-learn, Keras ,PyTorch ,Flask

WORK EXPERIENCE

Trainee Software Engineer (R&D)

CodeGen International(pvt) ltd — Apr 2025 – Oct 2025

- Technologies: Python, MySQL, Elasticsearch, React, Prophet, XGBoost
- Contributed to the Hotel Revenue Management Project within the R&D division.
- Designed and implemented data pipelines for processing and managing revenue data from multiple agents(weather,Event,demand,economics)
- Developed and trained machine learning models using Prophet and XGBoost to forecast agent-level revenue and demand patterns
- Built React-based front-end interfaces to present predictions, trends, and key performance metrics.

PROJECTS

Big Mart Sales Prediction System | Python , Jupyter

2025

- Developed a prediction system to forecast sales for products using python , jupyter and streamlit
- [Project Repository](#).

E-commerce Recommendation System | Python, Flask, Pandas, scikit-learn, HTML/CSS

2024

- Developed a personalized recommendation system as part of a 3rd year group project using Python and Flask
- Implemented content-based and collaborative filtering algorithms for product recommendations
- [Project Repository](#).

Online Skill Sharing Platform

2025

- Developed a full-stack web application that enables users to share and learn skills through interactive profiles and sessions.
- Users can log in using their existing social media accounts (OAuth 2.0).
- **Spring Boot| React**
- [Project Repository](#).

The Heritage - MERN Stack Hotel Reservation System

2024

- Developed a full-stack hotel reservation system as a part of a second year group project using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented features for room booking and manage , user authentication, and payment processing etc .
- [Project Repository](#).

EDUCATION

BSc (Hons) Information Technology Specialising in Data Science

Sri Lanka Institute Of Information Technology(SLIIT)

2022-Present

2020 - Advanced Level Examination | Index No- 2620070 |

St Annes College Kurunegala

Physical Science Stream

2017 - Ordinary Level Examination(English Medium) | Index No- 72405945 |

St Annes College Kurunegala

Certifications

- Data Science Foundations
Linkedin Learning
- AWS Academy Graduate - AWS Academy
Cloud Foundations
- Python for Data Science
Linkedin Learning
- SQL for Data Analysis - Linkedin Learning
- AI/ML Engineer - Stage 1
SLIIT
- R for Data Science : Analysis and Visualization
- Power BI Essential Training
Linkedin Learning
- Learning Data Analytics:1 Foundations
- Introduction to Career Skills in Data Analytics

WORK EXPERIENCE

Trainee

Commercial Bank,

Mawathagama Branch

EXTRA CURRICULAR ACTIVITIES

- Member of first place in mixed instrumental group event(senior) at ALL ISLAND inter school Western Music Competition 2016
- President of School English Literary Association (2018-2019)
- Secretary of the Science Society (2019-2020)
- Member of the College Western Band Troupe(2014)
- Member of school basket ball team
